

The ANRT organizes the 3rd edition of the DNSSEC (Domain Name System Security Extensions) training at the INPT from 24th to 26th September 2018 in collaboration with ICANN and the General Directorate of Information Systems Security (DGSSI). Our African counterparts, the representatives of Burkina Faso, the Democratic Republic of Congo, Côte d'Ivoire, Gabon, Senegal, Chad and Togo are among us. The objective of this workshop is to provide participants the technical skills necessary to implement the DNSSEC protocol.
