

The ANRT's internal unit in charge of the right of access to information has drawn up a report on the right of access to information. This committee has so far processed eight requests received through the platform Chafafiya. These requests relate in particular to administrative procedures managed by the ANRT.

The unit, which is made up of representatives of several entities, had proceeded, since its creation, to the inventory, categorization and classification of information available to the Agency as well as the updating of information assets.
