

Bank Al-Maghrib and the National Telecommunications Regulatory Agency signed, Wednesday, February 9th, 2022 in Rabat, a partnership agreement on the establishment of a framework for the exchange of data and experiences in areas of common interest.

This cooperation will allow both institutions to benefit from technological developments in the fields of information and digital infrastructure. Joint cooperation actions will also include digital banking services, innovative means of payment as well as the aspects inherent to these two sectors. On top of this, the agreement covers aspects related to crypto-asset trading platforms.
